# MARCIN DUDEK

*Absorbing  
the Other*

2011

Collage

58.5 x 78.5 cm

£1,500–£2,500

Estimate

Polish artist Marcin Dudek's sculptural practice involves employing simple, everyday materials to create a wide variety of methodically researched work, from cavernous, sculptural installations to intricate collages. Existing somewhere between organic patterns and man-made structures, his amalgam's of adhesive tape, vinyl and cardboard speak to the fragile and tense relationship between human beings and their natural environment.

## MARCIN DUDEK
