# KERSTIN KARTSCHER

## *Glow Worm*

2013

Ink marker, hybrid pen, pencil on paper

50 x 78 cm

£3,000–£4,000

Estimate

Kerstin Kartscher creates drawings and installations of imaginary worlds populated by nameless heroines who celebrate their femininity, liberated from social, emotional and psychological constraints, within fantastical, elegant and immense landscapes. Using a limited set of tools that include magic markers Kartscher demonstrates that a complex utopian vision can emerge from even the most common office supplies.
